Founded in 1984, First Impressions is now well known for the professionalism and high standards of all its activities and those of its consultants. First Impressions' success is founded on recognising the importance to consultants of having the independence to run their businesses the way they want, yet also having a strong system of support available. SO WHY SHOULD I CHOOSE FIRST IMPRESSIONS?

What is it that distinguishes First Impressions from other image companies?

THE PEOPLE!

We like to think we're special! First Impressions seems to attract lively, independent-minded people with a maturity and integrity which means that we all work for ourselves, and yet supporting each other strongly. You will find many friends amongst the consultant force and may well experience that distinctive feeling of being 'on the same wavelength' with many of your colleagues within the organisation. This is not a tangible benefit, but is nevertheless an important aspect of choosing which organisation to work with. You need to feel comfortable not only with the organisation's training, materials and products, but also with its PEOPLE. We hope you'll join us.
